DETAILED ACTION

This is in response to amendment filed on 5/8/07 in which claims 1-18 are pending. The applicant's amendments have been fully considered therefore this case is in condition for allowance.

Allowable Subject Matter

1. The following is an examiner's statement of reasons for allowance: the prior arts of record fail to anticipate or render obvious the following recited features: wherein the first and second decoders each linearly operate the received signals with the channel gains, pre-detect two symbols using threshold detection, and output the pre-detected two symbols as final symbols if the product of the product of the pre-detected symbols and a constant determined by the channel gains is a minimum as recited in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
